Spark interest in **writing**.

To stop brain drain, kids need to keep writing all through the summer. They need to practice their handwriting and creative writing skills. The key is to keep it fun and light.

Practice handwriting...

Frequent practice keeps handwriting from slipping into illegibility. Summer is also a great time for extra handwriting practice so their handwriting gets better. Better handwriting gives kids unconscious competency so they can concentrate on what they're writing instead of how to write it.

- Encourage daily **journaling**. The kids can write and draw about their activities each day.
- Use our well-designed **handwriting paper** to practice writing letters and sight words.
- Practice handwriting with **7 Days to Better Handwriting**. Each day's activity only takes 5 to 10 minutes. It's fun and easy to do and you'll see some noticeable improvement in your child's handwriting.
